

# greasefeast®

Aqueous-Based Cleaner / Degreaser

- ◆ **Extremely Powerful Cleaner**
- ◆ **Environmentally Safe**
- ◆ **Non-Hazardous**
- ◆ **Biodegradable**

**greasefeast** a multi-purpose liquid detergent designed for industrial and shop use. It is a unique and effective cleanser that uses the combined actions of powerful, environmentally friendly detergents with naturally occurring bacteria to dissolve and biologically consume grease and oils. Unlike caustic chemicals or dangerous solvents, **greasefeast** will not damage metal, plastic parts or electrical insulation. Use it on the toughest grease and heavy oil buildups.

## greasefeast is:

**Effective** - A strong biodegradable cleanser that cleans oil, grease and sludge from hard surfaces, including concrete, metals, equipment, wells and pits.

**Safe** - A non-toxic and pH neutral cleanser that is safe for humans and the environment. The product does not contain dangerous caustic chemicals and will not damage metal or plastic parts.

**Versatile** - **greasefeast** is effective against a wide range of greases, oils and sludge on a variety of surfaces.

**Cost Effective** - **greasefeast** is less expensive than solvent-based cleaners and is concentrated for light to heavy soil removal applications.

## How does **greasefeast** work?

**greasefeast** is a special formulation of surfactants and enzymes that naturally and safely clean away your oil and grease problems. The bacterial soaps (i.e., biosurfactants) in **greasefeast** were developed by EnSolve to cut grease and oil away from hard surfaces.

## Directions for Use:

**greasefeast** is ready to use or may be diluted. The following dilution ratios are recommended guidelines. Actual dilution ratios should be determined in each situation.

Grease/Oil Level	Dilution: ( <b>greasefeast</b> to Water)
High	Full Strength
Medium	1 pint to 1 gallon *
Low	½ pint to 1 gallon *

\* Best results when allowed to soak for at least 10 to 30 minutes.  
Heavier soils, at full strength, may require up to 1 hour.

## Other Uses:

**Machinery leaks and grime** - Thoroughly spray machine exterior and if needed, use stiff brush to facilitate removal of oily grime. Rinse thoroughly with clean water.

**Parts Washers** – Add to washer bath at concentration appropriate for the amount of oil/grease present. Re-charge with half the amount of **greasefeast** once per week. It is non-corrosive and will not score or harm metal parts.

**Automotive, boats and bicycle parts** - Dilute as appropriate, spray on metal or plastic surfaces and let sit for 10 to 30 minutes. In tough grime situations scrubbing may be required. Rinse thoroughly with clean water.

**Tile, Concrete and Other Hard Surface Floors** - **greasefeast** removes dirt and grime from hard surface floors. Use a 10-20% concentration as necessary.

## Safety & Handling:

**greasefeast** is a safe and environmentally benign product. As with any cleanser, EnSolve recommends responsible handling when using the product. **greasefeast** should not be ingested. Eye protection and gloves should be worn when using any cleaning product. Refer to the SDS for further information.

## Sizes Available:

**greasefeast** is available in quart, gallon, 5 gallon and 55 gallon drums. Other quantities are available upon request.
